### FOR BIRDS ONLY ▶

Squirrels may not be a problem in Arizona's lower elevations, but in the high country they can be relentless in their pursuit of food, including that meant for birds. Two new products are now available to deter these pesky critters. Cole's Flaming Squirrel Seed Sauce and Cole's Hot Meats sunflower seeds both contain cayenne pepper, a harmless spice that birds don't mind but squirrels do. Find both products at [coleswildbird.com](http://coleswildbird.com).
